## **Products**

### **Canvas Gallery Wraps**

Images are ink jet printed onto fine art canvas then wrapped onto a wooden stretcher frame (1.5" thick) with staples hidden on the back. For extra protection a UV coating is applied to the canvas before stretching. Matte or clear coating is available. The back of the frame is covered with paper backing and a metal hanger, so your image is ready to hang when it arrives! Gallery wraps look great alone as a single print, or as one of several grouped together to make a statement! Gallery wraps start from \$250.00. See the 'product' tab under 'online proofing' for a complete price list.

### **Portrait Collages**

All your favorite smiles, all in one place! We have a number of collage sizes available starting from \$175.00. You choose from up to 12 of your favorite images and we design a collage that showcases them all together beautifully. A preview of the collage will be available prior to printing for your approval. See the 'product' tab under 'online proofing' for a complete price list.

### **Framed Prints**

Frames can be as personal as the pictures themselves, and often complete the look for display in your home. Many of our larger prints can be purchased framed and ready to hang, starting from \$200.00. We have a wide variety of framing options to choose from. See the “framing” tab for a link to the framing catalog. See the ‘product’ tab under ‘online proofing’ for a complete price list.
