

Additional Engagement Session Tips...

Additional Engagement Session Tips... A Park, favorite hangouts, downtown urban, these are all great places to have your images created. You just walk around, spending time together and we follow, asking you to stop here and there.

We want you to be prepared to really get into this experience. Our goal is to capture your unique personalities and the love between the two of you. We want to show the different aspects of your relationship as you are playing around, gazing into each other's eyes, and rockin' it out sexy style showing the love and closeness between you both.

Casual Sunday morning styles, jeans and t shirts, Friday night dress up... Have different outfits ready to give your final images a greater variety. Remember to bring some props, hats, great high heeled shoes, sunglasses, hats and scarves, these all add some fun and make the session more about you!

Whether your ring is brand new, or a year or more old, we'll want to include it and your hands in a few images, so make sure it is clean and polished as well as your nails before the session.

Most of all... Let's have fun!

Diane & Sarah
