

## Float Mounts ready to hang, no frame or mat to purchase!

---

Float Mounts are a sleek and sophisticated way to display images that appear to float out from the wall. This effect is created by taking a print, wrapping it around a padded board and placing a ¾ inch hidden gatorboard on the back.

Choose from a Luster or Metallic photographic print or Canvas print. For added protection Canvas Float Mounts come with a Satin Laminate. Luster and Metallic come with a Matte Laminate. Float Mounts come ready to hang, nothing additional to purchase.
